**TIME ALLOWED: 3 HOURS**

1. An undergraduate student of law has approached you a post graduate student to assist him to design his legal research on the topic “The role of Artificial intelligence in Relation to Constitutional law”. Explain to him the relevant factors in research design and planning to serve as a guide to him.
2. It is true that in every research. The choice of researchable topic may be a problem. Advance reasons for this scenario.
3. Comprehensively explain the essentials of an Abstract in a research and explain the characteristics of a well written abstract.
4. Literature review is an important part of writing a research. The more the reviewer agrees with previous writers, the more he fore close his chances of continuing with the research. Conversely, the more the reviewer disagrees with previous writers the more he legalizes the continuation of his research. Do you agreed with this statement?
5. Enumerate and deontically explain the various body parts of thesis or long essay.
