

2021_2 APPROACH TO BUSINESS PLAN WRITING AND PRESENTATION

The Directorate has initiated a new approach to Business Enterprise writing and presentation in line with global best practices.

In the light of this, student's enterprise idea must be focused on any of the four thematic areas and graded according to the rubric attached herein. We will commence sensitization of students from 7th September to 20th 2021 as attached.

The Thematic Areas.

- i. Agripreneur (with focus on meeting specified SDGs). Main business is agriculture or agriculture related. Agripreneur finds opportunities to make the most of agricultural products.
- ii. Biotechnology (with focus on meeting specified SDGs). This is technology that uses biological systems, living organisms or parts of it to develop or create different products. Areas where biotechnology are mostly used are health care/medical (red), Production/industry (white), environment and crop production (green), and marine (blue).
- iii. Green Education (with focus on meeting specified SDGs). This is a service sector which is expected to transform education in economy development with focus on environmental benefits and sustainability. Becoming environmentally friendly and ecologically responsible in terms of decisions and lifestyles. Green practices may include sustainable purchasing, electronics stewardship, transportation, pollinator protection, waste diversion, and pollution prevention
- iv. Information Communication Technology – ICT (with focus on meeting specified SDGs). ICT services that can improve products and services in the various sectors of the economy. This may include software development or deployment.
